

Gate-in-a-Box is available in all NVP profile colors

REDUCE INSTALLATION TIMES AND CALL BACKS WITH OUR GATE-IN-A-BOX

Now you can quickly install vinyl gates with our easy-to-assemble gate kit

- Will not sag! Our hidden, sturdy, internal aluminum frame keeps this gate straight. See the picture.
- The internal frame is made from aluminum, which provides strength and rust resistance.
- Reduces the number of call-backs due to sagging gates. Our gate-in-the-box has been tested with over 15 years of real-world performance!
- Can be built to work on flat or sloped surfaces utilizing our patented corner system technology.
- Manufactured to match NVP's 6' or 5' privacy fences, in either an 1.5" x 5.5" or 1.75" x 8" pocket rail.
- Available standard in white and tan colors. Other NVP colors may be available upon request.
- Available in standard sizes of 4' and 6' widths and can be cut down to fit any opening in between.

- Want to save costs by fabricating your own gates at your shop? No problem, the gate corners and aluminum tubing can be purchased separately.
